

**Retail Price List**  
**March 31st 2019 – April 1st 2020**

\*All prices are subject to change

Designers of manufacturers of handcrafted planters, tables, benches, obelisks, gates and much more.

- All our products are made from oak, Iroko or Accoya<sup>(TM)</sup> from sustainable sources.
- All planters come with a fixed rubberised paint liner as standard.
- Paint or Preservative Prices are provided on the second from last page.
- Oxford Planters Ltd manufacture planters to client's own specifications. In our workshop skilled craftsmen work to your own designs from detailed drawings or photographs.
- All orders are subject to delivery charges.
- All measurements are in cm and are external measurements – height dimensions exclude finials

Full terms and condition are available at [www.oxfordplanters.co.uk](http://www.oxfordplanters.co.uk)

Please read on to find out more about our products and services:

Each product is hand crafted meticulously from the finest raw materials and assembled with scrupulous attention to detail by our highly skilled joiners. Every component is designed, developed and produced to the most exacting standards using only the best materials & FSC hardwood timbers available. For all natural finished products we use either iroko or oak. We paint the internal walls of all of our Planters with a thick rubberised paint sealant which creates a barrier between the timber and the soil, this will need to be reapplied after approximately 5 years to prolong the life of your Planters. For all painted products we use Accoya or Tricoya. For all lead products we use Accoya and code 4 lead. Accoya & Tricoya are modified timbers which outperform most natural hardwood's. Please follow this link to find out more about the benefits of choosing Accoya [www.accoya.com](http://www.accoya.com) and [www.meditetricoya.com](http://www.meditetricoya.com)

**We are able to make each of our products in bespoke sizes as well as being able to paint our painted products in any colour of your choice.**

For all Oak and Iroko finished planters we recommend protecting each product with Osmo protection oil - if you opt for a UV protection oil this will prevent the timber weathering - if you opt for a non UV application this will still allow the timber to silver as it weathers. Please contact us to request an oil application price. The slatted base is made of a timber called Balau which is also durable. You will need a permeable membrane to lay in the base of the Planter to prevent the soil falling through the slats.

All measurements are shown in centimetres & exclude the finial height (if applicable). If your overall height must include the height of the finials. please let us know upon ordering. All measurements are external measurements, please contact us if you require the internal dimensions.

We fit an Oxford Planters name plate to each of our products to identify us as the maker - if you would prefer not to have a name plate please let us know upon ordering.

**PLEASE CHECK ALL SITE ACCESS DIMENSIONS PRIOR TO ORDERING.**
